SUMMARY

Computer Science Graduate and Software Developer skilled in React, Angular, Vue, Nuxt.js, C++, and C#. Experienced in building scalable web applications and continuously strengthening backend expertise to become a Full-Stack Engineer.

TECHNICAL SKILLS

React / Next.js	System Design	SEO	Git/Gitlab
Vue/Nuxt.js	Html/Css/Typescript	GTM/CSP	Headless CMS

WORK EXPERIENCE

The Brown Academy (NZ) | Full stack developer **June 2026 - Present**

- Built XLchess, a full-stack online chess platform using the **PERN stack** and Stockfish engine.
- Developed puzzles, assessments, progress sync, career modules, and core chess workflows.
- Managed backend, frontend, deployments, releases, and **team lead** responsibilities in startup environment.

WebReinvent Technologies | Front-end Trainee **March 2026 - June 2026**

- Developing modern web applications using Vue.js and **Nuxt.js** while contributing to projects such as Toolstation.
- Implementing SEO optimizations, **GTM event tracking**, and CMS-driven content management solutions.
- Following GitFlow practices and collaborating through GitLab in an agile team environment.

Admiral India | SDE Intern **September 2025 - March 2026**

- Worked on full-stack applications using Java Spring Boot, React, and **Angular**.
- Utilized Git and Jenkins as part of CI/CD and DevOps workflows.
- Collaborated in agile teams to build and maintain scalable enterprise applications.

The Brown Academy (NZ) | Game Programmer **August 2024 - June 2025**

- Developed production-ready gameplay systems using C# and Unity.
 - Built the Bazaar Broker platform using React, Vite, and C# APIs.
 - Worked in an agile environment using **Jira** and collaborated with cross-functional teams.
-

PROJECTS

Online Invoicing Solution **Sep 2026**

- Developed an online invoicing platform for a family business, reducing invoice software **costs by 80%**.
- Built stock management, ledger, invoicing, customer management, and invoice printing workflows.
- Implemented the platform using **Next.js, Express, and PostgreSQL** for reliable business operations.

SaaS Bazaar **April 2026**

- Developed a **Nuxt 4** based e-commerce platform with secure authentication and account management.
- Built complete PLP, PDP, cart, and order management workflows.
- Implemented password management, order history, and user account features.

ERP System **January 2026**

- Developed an **Angular**-based attendance and leave management system using **TypeScript**.
 - Built reusable components, modular services, and scalable application architecture.
 - Implemented unit testing with Jasmine and Karma to ensure code quality and reliability.
-

EDUCATION

Bachelor of Technology (2021-2025)

Majors: Computer Science Engineering
JEMTEC, Greater Noida

Secondary Education (2018)

BMVB- ASMA

Senior Secondary Education (2020)

BMVB- ASMA
